Unfiltered Opinions

Akriti Das says:

My Skill Counsellor was very helpful for the counselling of an acid attack survivor to give her a sense of direction.

Parth Pokhriyal says:

A really good and experienced counselor who guided me through my anxieties and helped me move forward with my career. Definitely recommended.

A Personal Note

This journey is not just professional for me — it is personal.

When my own child went abroad, I realised that the real challenges begin after admission — settling into a new country, managing daily life, and navigating unfamiliar systems.

That experience shapes the way I work today.

I don't just guide students through applications — I support families through the entire journey, so both students and parents feel prepared, confident, and at ease.

I work with a limited number of students to ensure focused, one-on-one guidance at every stage.

Ria ma'am's team was quite helpful in proofreading my SOP, which improved its overall quality. She is competent at what she does and I recommend My Skill Counsellor if you need help with consultation.

Jasbir Singh says:

The experience was great! This one appointment has cleared most of my doubts and I'm pretty clear with my goals ahead.
